Record Video Presentation

CEE412 / CET522

TRANSPORTATION DATA MANAGEMENT AND VISUALIZATION
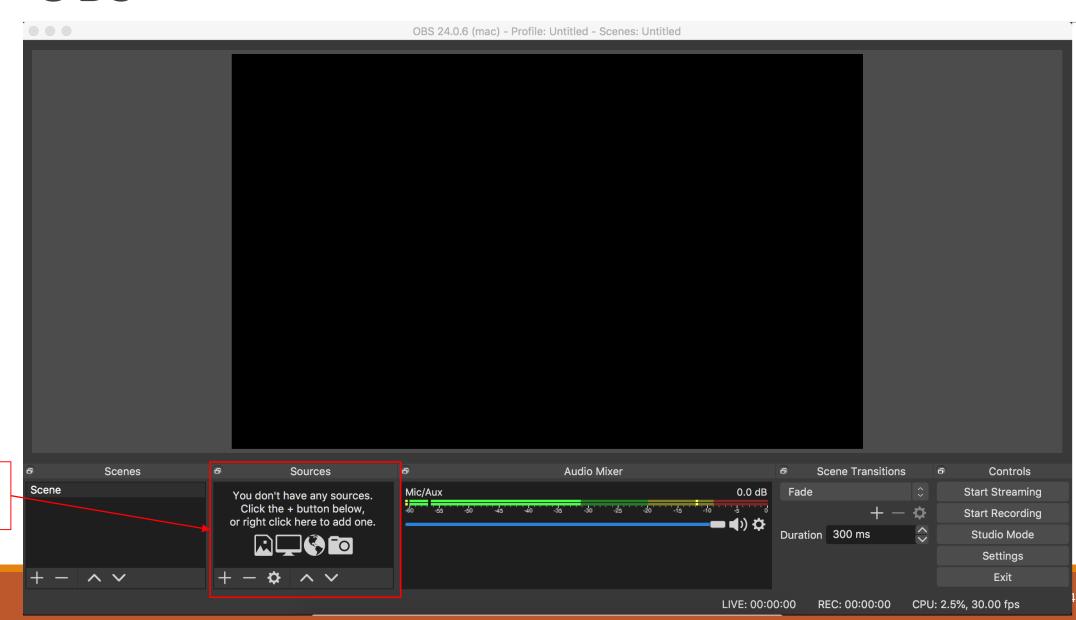

WINTER 2020

Opitons

- PPT

- OBS

- Zoom

OBS

- OBS is a very powerful and useful tool that support you to record your PPT, your voice, and even your camera stream.

- OBS (https://obsproject.com/) is open-source and free.

- It supports Windows, Mac, and Linux

- Download, install, and open it. You will find a screen like the figure in the next page

OBS

Add source

OBS

- Input source:
  - Audio input capture: your voice
  - Video Capture Device: your camera stream
  - Window Capture: Select PPT
    - You may need to configure PPT Slide Show to fill the screen when you record.
    - Here is a link, which shows how we can show a PPT presentation in OBS: https://www.google.com/search?q=obs+ppt&rlz=1C5CHFA_enTW581TW583&oq=obs+ppt&aqs=chrome..69i57j0l7.2144j0j4&sourceid=chrome&ie=UTF-8#kpvalbx=_6XxhXvmYMtLY-gTEv7eACQ27.

Zoom

- UW provide free Zoom account for faculties and students
  - https://itconnect.uw.edu/connect/phones/conferencing/zoom-video-conferencing/

- Your group can launch a Zoom meeting and record your meeting as a video presentation.
